Curriculum & Syllabus of M.A. Yoga program

(Revised as on 01 August 2023)

Forwarding

I am thrilled to observe the updated curriculum of the yogic science Department for M.A. yoga Program, which seamlessly integrates the most recent technological advancements and adheres to the guidelines set forth by UGC. The revised curriculum also thoughtfully incorporates the directives of NEP-2020 and the Sustainable Development Goals.

The alignment of course outcomes (COs), Programme Outcome (POs) and Programme specific outcomes(PSOs) has been intricately executed, aligning perfectly with the requisites of NEP-2020 and NAAC standards. I hold the belief that this revised syllabus will significantly enhance the skills and employability of our students.

With immense satisfaction, I hereby present the revised curriculum for the M.A. yoga program for implementation in the upcoming session.

Curriculum & Syllabus of M.A. Yoga program
(Revised as on 01 August 2023)

From the Desk of the Vice-Chancellor

AKS University is currently undergoing a process to revamp its curriculum into an outcome-based approach, with the aim of enhancing the teaching and learning process. The foundation of quality of quality education lies in the implementation of a curriculum that aligns with both societal and industrial needs, focusing on relevant outcomes. This entails dedicated and inspired faculty members, as well as impactful industry internships.

Hence, it is of utmost importance to begin this endeavor by crafting an outcome-based curriculum in collaboration with academia and industry experts. This curriculum design should be informed by the latest technological advancements, market demands, the guidelines outlined in the National Education Policy (NEP) of 2020, and sustainable goals.

I'm delighted to learn that the revised curriculum has been meticulously crafted by the Yogic Science Department, in consultation with an array of experts from the yog industry, research institutes, and academia. This curriculum effectively integrates the principles outlined in the NEP-2020 guidelines, as well as sustainable goals. It also adeptly incorporates the latest advancements in Yog Health and education sector.

Furthermore, the curriculum takes into account the specific needs of the Indian yoga industry, focusing on the production of good yoga experts, high-quality yoga teachers and researchers. This inclusion not only imparts knowledge but also encourages students' independent thinking for potential enhancements in this area.

The curriculum goes beyond theoretical learning and embraces practical applications by incorporating the utilization of old and new yoga streams. To enhance students' skills, the curriculum integrates Hands-On Training, industrial visits, and Field Training experiences, research and progress. This well-rounded approach ensures that students receive a comprehensive education, fostering their skill development and preparing them for success in the yoga industry.

I am confident that the updated curriculum for cement yogic science will not only enhance students' technical skills but also contribute significantly to their employability. During the process of revising the curriculum, I am pleased to observe that the yogic science department has diligently adhered to the guidelines provided by the UGC. Additionally, they have maintained a total credit requirement of 110 for the M.A. Yoga program. It's worth noting that curriculum revision is an ongoing and dynamic process, designed to address the continuous evolution of technological advancements and both local and global concerns. This ensures that the curriculum remains responsive and attuned to the changing landscape of education and industry.

AKS University warmly invites input and suggestions from industry experts and technocrats and Alumni students to enhance the curriculum and make it more student-centered. Your valuable insights will greatly contribute to shaping an education that best serves the needs and aspirations of our students.

B. A. Chopade

Professor B. A. Chopade
Vice- Chancellor
AKS University, Satna

01 August 2023

Professor B.A. Chopade
Vice - Chancellor
AKS University
Satna, 485001 (M.P.)

As part of our commitment to ongoing enhancement, the Department of yogic science consistently reviews and updates its M.A yogic science program curriculum every three years. Through this process, we ensure that the curriculum remains aligned with the latest technological advancements, as well as local and global yoga industrial and social demands.

During this procedure, the existing curriculum for the M.A. Yoga Program undergoes evaluation by a panel of yoga , industry specialists, and academics. Following meticulous scrutiny, the revised curriculum has been formulated and is set to be implemented starting from August 01, 2023. This implementation is contingent upon the endorsement of the curriculum by the University's Board of Studies and Governing Body.

This curriculum closely adheres to the UGC model syllabus distributed in 2016. It seamlessly integrates the guidelines set forth by the Ministry of Higher Education, Government of India, through NEP-2020, as well as the principles of Sustainable Development Goals. In order to foster the holistic skill development of students, a range of practical activities, including Hands-On Training, Industrial Visits, Project planning and execution, Report Writing, Seminars, and Industrial Field work Training, have been incorporated. Furthermore, in alignment with UGC directives, the total credit allocation for the M.A. Yoga program is capped at 110 credits. This curriculum is enriched with course components in alignment with UGC guidelines, encompassing various disciplines such as Fundamental Science Concepts:

For each course, a thorough mapping of Course Outcomes, Program Outcomes, and Programme Specific Outcomes has been undertaken. As the course syllabus is being meticulously developed, various elements such as session outcomes, laboratory instruction, classroom instruction, self-learning activities, assignments, and mini projects are meticulously outlined.

We hold the belief that this dynamic curriculum will undoubtedly enhance independent thinking, skills, and overall employability of the students.

Induction Program

Induction program for students to be offered right at the start of the first year, It is mandatory. AKS University has design an induction program for 1st year student, details are below:

- i. Physical activity
- ii. Creative Arts
- iii. Universal Human Values
- iv. Literary
- v. Proficiency Modules
- vi. Lectures by Eminent People
- vii. Visits to local Areas
- viii. Familiarization to Dept./Branch & Innovations

Mandatory Visits in yoga institutes /Expert Lectures:

- i. It is mandatory to arrange one Yoga - industrial visit at lest one time in the course.

Evaluation Scheme:

1. For Theory Courses:

- i. The weightage of Internal assessment is 20% and
- ii. End Semester Exam is 80%

The student has to obtain at least 40% marks individually both in internal assessment and endsemester exams to pass.

2. For Practical Courses:

- i. The weightage of Internal assessment is 20% and
- ii. End Semester Exam is 80%

The student has to obtain at least 40% marks individually both in internal assessment and endsemester exams to pass.

3. For field training / Internship / Projects / Seminar etc.

Evaluation is based on work done, quality of report, performance in viva-voce, presentation etc

Semester-I

Course Code: 70 YS103

Course Title : Human biology

Pre- requisite: Student should have basic knowledge of human biology and its concepts

Rationale: Students of Yoga should have a legal understanding of Yoga and its original text Patanjali Yoga. At the same time, they should also have adequate knowledge of human biology in which they should have knowledge of its basic principles and elements.

Course Outcomes:

CO 103.1: A student will be able to discuss the introduction of human body with concept of cells, tissues and their gross anatomy and physiology.

CO 103.2: A student will be able to explain the concept of Skeletal System, their Types & Functions with gross anatomy and physiology.

CO 103.3: A student will be able to identify the Muscular System: Concept, Types & Functions with gross anatomy and physiology.

CO103.4: A student will be able to express the Respiratory System: Concept, Gross Anatomy & Physiology, Types & Functions.

CO103.5: A student will be able to describe the Cardiovascular System: Concept, Gross Anatomy, Physiology, & Functions

Scheme of Studies:

Semester I

Course Code: 70 YS1O4

Course Title : **Therapeutic Yoga**

Pre- requisite: Student should have basic knowledge of **Therapeutic Yoga** and its concepts

Rationale: Students of Yoga should have a legal understanding of Yoga and its original text Yoga. At the same time, they should also have adequate knowledge of **Therapeutic Yoga** in which they should have knowledge of its basic principles and elements.

Course Outcomes:

CO 104.1: A student will able to discuss the Yogic concepts of health, stress and disease.

CO 104.2: A student will able to explain the Preventive healthcare according to yoga.

CO 104.3: A student will able to describe the Yoga for prevention of health.

CO104.4: A student will able to interpret the Psycho physiological effects of yoga evidences through modern research

Scheme of Studies:

Course-Curriculum Detailing:

This course syllabus illustrates the expected learning achievements, both at the course and session levels, which students are anticipated to accomplish through various modes of instruction including Classroom Instruction (CI), Laboratory Instruction (LI), Sessional Work (SW), and Self Learning (SL). As the course progresses, students should showcase their mastery of Session Outcomes (SOs), culminating in the overall achievement of Course Outcomes (COs) upon the course's conclusion.

CO.104. 1: A student will able to discuss the Yogic concepts of health, stress and disease.

Course Code: 70 YS202
Course Title: Physiological Effect of Yoga practices
Pre-requisite: Student should have basic knowledge of human Physiology and Physiological Effect of Yoga practices
Rationale: Yoga students must have an understanding of the human body Physiology. They should be aware of the effects that different yoga exercises have on the body.

Course Outcomes

CO202.1: A student will be able to describe a deeper understanding of the physiological changes that occur after the practice of yoga.

CO202.2: A student would be able to get a brief idea of the underlying mechanisms behind the potential benefits that result from the practice of yoga

CO202.3:A A student will be able to describe about an idea of muscles and nerve fibers stretched and Compressed, toned up during various yogic posture.

CO202.4:A A student will be able to describe the To have an in-depth understanding about physiological benefits of Pranayama; Neuro Psychological locks in Mudras; Neuro Muscular locks in Bandhas.

Course-Curriculum Detailing:

This course syllabus illustrates the expected learning achievements, both at the course and session levels, which students are anticipated to accomplish through various modes of instruction including Classroom Instruction (CI), Laboratory Instruction (LI), Sessional Work (SW), and Self Learning (SL). As the course progresses, students should show case their mastery of Session Outcomes (SOs), culminating in the overall achievement of Course Outcomes (COs) upon the course's conclusion.

CO202.1: A student will be able to describe a deeper understanding of the physiological changes that occur after the practice of yoga.

Dr Dileep Kumar Tiwari

Dr Ganesh Prasad Gupta

Dr Dherendra Singh

Brief of Hours suggested for the Course Outcome

Course Outcomes	Class Lecture (CI)	Sessional Work (SW)	Self Learning (SI)	Total hour (CI+SW+SI)
C0 204.1: A student will able to interpreted about the Introduction to models of Psychopathology	15	2	2	19
C0 204.2: A student will able to discuss the Case history taking and mental status examination	15	2	2	19
C0 204.3: A student will able to interpreted the Mental Disorders of Children and their treatment	15	2	2	19
C0 204.4: A student will able to discuss about the Yogic counseling.	15	2	2	19
Total Hours	60	8	8	76

Suggestion for End Semester Assessment

Suggested Specification Table (For ESA)

CO	Unit Titles	Marks Distribution			Total Marks
		R	U	A	
CO-1	A student will able to interpreted about the Introduction to models of Psychopathology	05	20	00	25
CO-2	A student will able to discuss the Case history taking and mental status examination	05	20	00	25
CO-3	A student will able to interpreted the Mental Disorders of Children and their treatment	05	20	00	25
CO-4	A student will able to discuss about the Yogic counseling.	05	20	00	25
Total		20	80	00	100

Legend: R: Remember, U: Understand, A: Apply

Note. Detailed Assessment rubric need to be prepared by the course wise teachers for above tasks. Teachers can also design different tasks as per requirement, for end semester assessment.

Suggested Instructional/Implementation Strategies:

82. Improved Lecture
83. Tutorial
84. Case Method
85. Group Discussion
86. Role Play
87. Visit to Yoga Institute
88. Demonstration
89. ICT Based Teaching Learning (Video Demonstration/Tutorials CBT, Blog, Facebook, Twitter, Whatsapp, Mobile, Online sources)
90. Brainstorming

Course-Curriculum Detailing:

This course syllabus illustrates the expected learning achievements, both at the course and session levels, which students are anticipated to accomplish through various modes of instruction including Classroom Instruction (CI), Laboratory Instruction (LI), Sessional Work (SW), and Self Learning (SL). As the course progresses, students should showcase their mastery of Session Outcomes (SOs), culminating in the overall achievement of Course Outcomes (COs) upon the course's conclusion.

CO205.1: A student will be able to be exposed to the basic theoretical concepts of conducting non-scientific research and motivate them to pursue higher research

Course-Curriculum Detailing:

This course syllabus illustrates the expected learning achievements, both at the course and session levels, which students are anticipated to accomplish through various modes of instruction including Classroom Instruction (CI), Laboratory Instruction (LI), Sessional Work (SW), and Self Learning (SL). As the course progresses, students should showcase their mastery of Session Outcomes (SOs), culminating in the overall achievement of Course Outcomes (COs) upon the course's conclusion.

CO305. 1: A student will able to interpret about the Brief introduction and History of Naturopathy

Course-Curriculum Detailing:

This course syllabus illustrates the expected learning achievements, both at the course and session levels, which students are anticipated to accomplish through various modes of instruction including Classroom Instruction (CI), Laboratory Instruction (LI), Sessional Work (SW), and Self Learning (SL). As the course progresses, students should showcase their mastery of Session Outcomes (SOs), culminating in the overall achievement of Course Outcomes (COs) upon the course's conclusion.

Semester 4-

Elective Paper-III: ELECTRO THERAPY

Course Code: 70 YS403

Course Title : ELECTRO THERAPY

Pre- requisite: Student should have basic knowledge of Applications of ELECTRO THERAPY and its concepts

Rationale: Students of Yoga should have a legal understanding of Yoga and its original text Yoga. At the same time, they should also have adequate knowledge of ELECTRO THERAPY in which they should have knowledge of its basic principles and elements.

Course Outcomes:

CO 403.1: A students shall be able to explain the Introduction of Raja Yoga and its concepts.

CO 403.2: A students shall be able to discuss about the introduction of karma yoga and its concepts.

CO 403.3: A students shall be able to describe the concepts of jnana yoga and its fundamentals.

CO 403.4: A students shall be able to express the introduction of Bhakti Yoga its types and concepts .

Scheme of Studies:

Board of Study	Course Code	Course Title	Scheme of studies(Hours/Week)				Total Study Hours (CI+LI+SW+SL)	Total Credits(C)
			CI	LI	SW	SL		
Program Core	70 YS403	ELECTRO THERAPY	4	0	1	1	6	4

Legend:

CI: Classroom Instruction (Includes different instructional strategies i.e. Lecture (L) and Tutorial (T) and others),

LI: Laboratory Instruction (Includes Practical performances in laboratory workshop, field or other locations using different instructional strategies)

SW: Sessional Work (includes assignment, seminar, mini project etc.),

SL: Self Learning,

C: Credits.

**Scheme of Assessment:
Theory**

			Progressive Assessment (PRA)						Total Marks (CA+CT+SA+CAT+AT)		
			Class/Home Assignment 5 number 3 marks each (CA)	Class Test 2 (2 best out of 3) 10 marks each (CT)	Seminar one (SA)	Class Activity any one (CA T)	Class Attendance (AT)				
PCC	70 YS403	ELECTRO THERAPY	10	10	0	0	0	20	80	100	

Course-Curriculum Detailing:

This course syllabus illustrates the expected learning achievements, both at the course and session levels, which students are anticipated to accomplish through various modes of instruction including Classroom Instruction (CI), Laboratory Instruction (LI), Sessional Work (SW), and Self Learning (SL). As the course progresses, students should showcase their mastery of Session Outcomes (SOs), culminating in the overall achievement of Course Outcomes (COs) upon the course's conclusion.

CO403. 1: A students shall be able to explain the introduction of electro therapy and basic components of electric current.

Approximate Hours

Curriculum development team –

Dr Dileep Kumar Tiwari

Dr Ganesh Prasad Gupta

Dr Dherendra Singh

SW-4 Suggested Sessional Work (SW):

d. Assignments:

- i. Write Prakriti Purusha SamYoga
- ii. Write of Nirman Chitta and four types of Karmas
- iii. Describe of Samprajnatah Samadhi (Vitarka, Vichara, Anand and Ashmit

Brief of Hours suggested for the Course Outcome

Course Outcomes	Class Lecture (CI)	Sessional Work (SW)	Self Learning (SI)	Total hour (CI+SW+SI)
C0 403.1: A students shall be able to Explain the Introduction of Raja Yoga and its concepts	15	2	2	19
C0 403.2: A students shall be able to discuss about the introduction of karma yoga and its concepts .	15	2	2	19
C0 403.3: A students shall be able to describe the concepts of jnana yoga and its fundamentals	15	2	2	19
C0 403.4: A students shall be able to express the introduction of Bhakti Yoga its types and concepts.	15	2	2	19
Total Hours	60	8	8	76

Suggestion for End Semester Assessment

Suggested Specification Table (For ESA)

CO	Unit Titles	Marks Distribution			Total Marks
		R	U	A	
CO-1	Basic components of electric current	05	20	00	25
CO-2	Types of electric current	05	20	00	25
CO-3	Pain	05	20	00	25
CO-4	PRACTICAL	05	20	00	25
Total		20	80	00	100

Legend: R: Remember, U: Understand, A: Apply

Note. Detailed Assessment rubric need to be prepared by the course wise teachers for above tasks. Teachers can also design different tasks as per requirement, for end semester assessment.

Suggested Instructional/Implementation Strategies:

28. Improved Lecture
29. Tutorial
30. Case Method
31. Group Discussion
32. Role Play
33. Visit to Yoga Institute
34. Demonstration
35. ICT Based Teaching Learning (Video Demonstration/Tutorials CBT, Blog, Facebook, Twitter, Whatsapp, Mobile, Online sources)
36. Brainstorming

Cos.POs and PSOs Mapping
